Scope: CSR 2010 is the fifth conference in a series of regular events started with CSR 2006 in St. Petersburg (see LNCS 3967), CSR 2007 in Ekaterinburg (see LNCS 4649), CSR 2008 in Moscow (see LNCS 5010), and CSR 2009 in Novosibirsk (see LNCS 5675). It intends to reflect the broad scope of international cooperation in computer science. The topics are:

- algorithms and data structures
- combinatorial optimization
- constraint solving
- complexity and cryptography
- formal languages and automata
- computational models and concepts

- algorithms for concurrent and distributed systems, networks
- proof theory and applications of logic to computer science
- model checking
- automated reasoning
- deductive methods

Submissions: Authors are invited to submit an extended abstract or a full paper of at most 12 pages in the LNCS format

    http://www.springer.com/computer/lncs?SGWID=0-164-7-72376-0 .

Proofs and other material omitted due to space constraints are to be put into a clearly marked appendix to be read at discretion of the referees. Papers must present original (and not previously published) research. Simultaneous submissions to journals or to other conferences with published proceedings are not allowed.

Submissions are to be made via EasyChair no later than at 23:59 CET on **December 18, 2009**, the submission server is open at

    https://www.easychair.org/login.cgi?conf=csr2010 .

Notifications will be sent by January 31, 2010.

Opening lecture: Alexander Razborov

Invited speakers include
    Fedor Fomin
    (The full list of invited speakers TBA.)

Proceedings: The proceedings of the symposium will be published in Springer's LNCS series.
