

Dr. Nikolai (Nick) Gravin

CONTACT INFORMATION	School of Information Management & Engineering, 100 Wudong Road Yangpu District, Shanghai 200433 China	<i>ITCS, SUFE</i> <i>E-mail: nikolai@mail.shufe.edu.cn</i> <i>WWW: logic.pdmi.ras.ru/~gravin</i>
ACADEMIC POSITIONS	Associate Professor ITCS, Shanghai University of Finance and Economics Postdoctoral Researcher MIT: Computer Science and Artificial Intelligence Laboratory • Host: Constantinos Daskalakis Postdoctoral Researcher Microsoft Research New England • Supervising manager: Jennifer Chayes	2017 – Present 2016 – 2017 2013 – 2015
EDUCATION	(2nd) Ph.D., Nanyang Technological University , Singapore, December 2013 • Thesis: <i>Incentive Compatible Design of Reverse Auctions</i> • Adviser: Dmitrii Pasechnik • G.P.A.: 4.00/4 (1st) Ph.D., V. A. Steklov Institute of Mathematics , St. Petersburg, Russia, April 2011 • Thesis: <i>Some aspects of proper graph colorings</i> • Adviser: Dmitrii Karpov Specialist (M.S. & B.S.), Saint-Petersburg State University , Russia, June 2008 • Thesis: <i>Non-degenerate colorings in Brook's theorem</i> • Adviser: Dmitrii Karpov • graduated cum laude	
AWARDS & GRANTS	1000-Talent plan, Shanghai, China 2017-present MOE Tier 2 Grant SGD 740,000 (USD 600,000), co-investigator, Singapore 2011-2014 PhD Microsoft Research Asia Fellowship, 2011. SINGA PhD scholarship, Singapore 2009-2013 Euler Foundation Scholarship for Young Mathematicians, Russia 2008. Semi-finals of ACM International, Collegiate Programming Contest, 2006. Gold Medal at International Mathematical Olympiad, 2003.	
EXPERIENCE	Research intern, Microsoft Research New England , June-August 2012. • Supervisor: Jennifer Chayes Visiting PhD student, Aarhus University , July-September 2011. • Host: Peter Bro Miltersen Research intern, Microsoft Research Asia , June-August 2010. • Supervisor: Pinyan Lu	

Programm committee: ACM EC 2014-2017, SAGT 2015, WINE 2017.

Subreferee: ACM EC 2013, ALT 2014, CATS 2012, CIAC 2013, CSR (2010, 2011), FOCS 2014, ICALP (13, 17), ESA 17, MFCS 13, SAGT 14, SODA (13, 15, 17, 18), SOFSEM 2014, SPAA 2011, STOC (11, 13, 14, 15, 16), WINE (09, 10, 11, 12, 13, 16).

Journal Reviews: SIAM Journal on computing, Journal of computer and system sciences, Games and Economic Behavior, Mathematics of Operation Research, ACM Transactions on Algorithms, Journal of Artificial Intelligence Research, IEEE Transactions on Signal Processing, Advances in Computational Mathematics, ACM transactions on Economics and Computation, Discrete and Computational Geometry, Annels de l'institute Fourier .

Other services: Grant review for the Israeli Science Foundation, mathematical reviews for AMS, session organizer at international symposium on mathematical programming 2015.

- TUTORIALS “Budget Feasible Mechanisms”, Conference on Web and Internet Economics (WINE), Harvard University, Cambridge, MA, December 2013 (Co-taught with Yaron Singer)
- INVITED TALKS Seattle, Microsoft Theory Day “Play with your benchmarks”, October 2014
- Barbados, Bellairs Workshop on Algorithmic Game Theory, “Competitive analysis: how to play with your benchmarks”, April 2014
- Dagstuhl seminar on Electronic Markets and Auctions, “Competitive auctions for selling an item in unlimited supply”, November 2013
- New York Computer Science and Economics Day, “Optimal competitive auctions”, November 2013
- MSR New England, Game Theory and Computation Seminar, “Optimal competitive auctions”, October, 2013
- Singapore, Theory seminar “Combinatorial Walrasian Equilibrium”, November 2012
- Copenhagen, CFEM workshop on New Trends in Mechanism Design, “On the power of random sampling in mechanism design”, September 2011
- Aarhus, CTIC Theory seminar “Frugal Mechanism Design via Spectral Techniques”, August 2011
- Hong-Kong, Joint Workshop on Applied Mathematics and Informatics, “An Improved Algorithm for Orthogonal CNN Problem”, March 2010.
- ACTIVITIES Organizer of *reading group* at *Nanyang Technological University*, spring 2011, fall 2012.
- Research papers on algorithmic game theory and related topics.
- Seminar organizer* at *Saint-Petersburg State University*, spring 2008
- Advanced topics (graduate level) in graph theory for undergraduate students.

TEACHING
EXPERIENCE

Saint-Petersburg State University

Teaching Assistant, fall semester 2007

- 3rd semester of Linear Algebra.
- Responsibilities: problem solving, designing tests, grading.

Teaching assistant, fall semesters 2008, 2009, 2010

- Graph Theory and Combinatorics.
- Responsibilities: problem solving, designing tests, grading, extra lectures to the main course.

Nanyang Technological University

Trainer, spring semesters 2010, 2011

- Topics on combinatorics and linear algebra for 2-5 year undergraduate students.
- Responsibilities: selection to and training for [International Mathematical Competition](#).

Instructor, spring semester 2011

- Course: “art of problem solving” for 1-3 year students.
- Responsibilities: design of problem sets, problem solving, maintaining [blog](#) where students did cross-verification of their solutions.
